

Kodak

Desktop 3 Microfilmer

To help you get the most out of walk-up microfilming, we put more into it.

The compact KODAK Desktop 3 Microfilmer packs fast, convenient microfilming into a machine that fits almost anywhere. Automatic feeding and duplex filming allow operators to process up to 500 check-size items per minute with ease. Interchangeable, snap-in film cassettes make it simple for different users or departments to share the same microfilmer. Optional image marking is also available for faster retrievals. Improvements include a new cover design that reduces noise levels, a new receiving hopper, plus new composite gears that help extend the life of your microfilmer even further. When it comes to timely, secure backup, you can depend on the KODAK Desktop 3 Microfilmer.

KODAK Desktop 3 Microfilmer

The KODAK Desktop 3 Microfilmer is a compact 16 mm rotary duplex microfilmer designed for banking and general-purpose office work. It offers superior resolution and many of the capabilities of larger machines in a smaller, affordable package. And it's so easy to run, almost anybody can operate it productively with minimum training.

KEY FEATURES THAT KEEP WORK MOVING QUICKLY.

- Precision optics: deliver high-quality images.
- Duplex filming: captures the fronts and backs of documents in a single pass.
- Optional endorser: puts a single endorsement in the exact location required at full machine speed.
- Optional image marking: facilitates retrievals using automated retrieval terminals from Kodak.
- Optional exposure control: enhances image quality for consistent results, even from varied documents.
- Microprocessor controls: maintain maximum throughput with jam detection, feeder monitor, and operator indicators.
- Rugged, proven design: delivers reliable performance, prevents interruptions.

SPECIFICATIONS

Performance:

Reduction ratio: 40:1 (nominal)

Resolution: 125 l/mm minimum

Speed: 1740" (44.2 m) per minute, equivalent to 500 check-size documents per minute

Document size:

Width: 2.25 to 9.00" (5.7 to 22.2 cm)

Length: 2.5 to 11.7" (6.4 to 29.7 cm)

REQUIRES UPDATE

Film cassette capacity:

One roll of 16 mm microfilm. Handles KODAK IMAGELINK™ HQ Microfilm in standard lengths of 100' (30.5 m) and 215' (65.5 m)

Image marks:

3-level (with optional image mark accessory)

Dimensions:

Height: 13.0" (33.0 cm)

Width: 19" (48.3 cm)

Depth: 23.0" (58.4 cm)

Weight: 98.0 lbs. (44.5 kg)

Electrical requirements:

100 V AC, 50/60 Hz, 120 V AC, 60 Hz, 220/240 V AC, 50 Hz

Controls:

Power on/off

Two-speed film advance

Positive cassette latch

Operator indicators:

Film supply

Film motion

Film odometer

Feeder monitor

Document counter

Low film alarm

End of film alarm

Lamp out alarm

Accessories:
